Full-stack developer with 7 years of hands-on experience in developing and deploying mobile and web applications. Have a proven track record in crafting multiple highly-scalable applications using different tech stacks. Highly-skilled team player is able to collaborate with other developers, engineers, and software testers to deliver remarkable products within deadlines and budgets.

EXPERIENCE

2021-11 – PRESENT
FULL STACK DEVELOPER, SIMEVO S.R.L.

- Built a server-side rendered web app implemented with Django 4 + ASGI that acts as a gatekeeper to secondary web apps hosted on a Kubernetes cluster in a multi-instance fashion.
- Built 3 projects using Django for the backend and alpine and Vue for the frontend.
- Contributed to fixing a lot of complicated issues as a problem solver.

2017-05 – 2021-10
FULL STACK DEVELOPER, RAIN INTERACTIVE KK

- Built reusable React.js and Vue.js components.
- Developed 5+ SPAs using React/Redux.
- Integrated a real-time WebSocket to see all changes intermediately.
- Built a customizable survey system using Django web framework for a market research company.
- Designed and implemented a Django GraphQL API to collect data from a Unity Client and store the data in PostgreSQL.

2015-10 – 2017-04
FULL STACK DEVELOPER, ZO DIGITAL JAPAN

- Created websites on the MERN stack from scratch.
- Contributed as part of the team that developed a new webshop app for a large retailer.
- Supported and refined a web service for storing data from social networks.
- Contributed to deployment to hosting server.
- Integrated Webpack and React.js into Django framework.

2014-04 – 2015-09
FRONT-END DEVELOPER, YUMYAPPS CO.,LTD.

- Created a number of responsive web pages
- Developed themes and plugins on WordPress.
- Implemented pixel-perfect design using vertical alignments.
